The 2017 Traffic Safety Conference, held June 7-9 in Las Colinas, Texas, will focus on actions we can take to implement the strategies and countermeasures of the revised Texas Strategic Highway Safety Plan. Conference session topics will include: impaired driving, distracted driving, intersection safety, pedestrian safety, lane and roadway departures, speeding and older System Users. [Register now.](#)

The [Transportation Policy Research Center](#) was created in 2013 to support the role of the [Texas A&M Transportation Institute](#) as an independent resource to the Texas Legislature providing analysis of state transportation policies and the economic impact of those policies.
